

Quick Rack Series

Our Power Supplies Are Unmatched In The Industry...

AJ's Power Source Inc.
1-800-AJPOWER

3U CUSTOMER CONFIGURABLE POWER SYSTEM

Features and Benefits

- Custom Built For Each Application
- Universal AC Input
- Power Factor Correction
- Capable of 1 to 6 Outputs
- Output Voltages from 1.8V – 48VDC

- 3U, 19" Rackmount
- Over Temperature Protection
- No Minimum Load
- Over Voltage Protection
- Front to Back Airflow

Specifications

Item	Unit of Measure	Unit Price
AC Input Voltage	VAC	85-264, 47-63Hz
DC Input Voltage	VDC	24 , 48 , 120 – 370VDC
Input Current	Amps	0 – 70 Amps
Inrush Current	Amps	<200 Amps
Efficiency	%	75 % Typical
Power Factor Correction		Standard on Most Models
Output Power	Watts	500 – 6000 Watts Depending on Customer Configuration
Output Load Regulation	%	1% Standard and <5% maximum
Output Line Regulation	%	<1%

Specifications Cont.

Item	Unit of Measure	Unit Price
Ripple and Noise	Pk - Pk	2% pk - pk
Hold Up Time	mS	>16 mS at 80% Load
Remote Sense		Available on Outputs greater than 150 Watts
Operating Temperature	°C	0 to 50°C Standard or -20 to 70°C Available
Thermal Protection		Over Temperature Shut down on each Output
Storage Temperature	°C	-20 to 70°C all Modules
Humidity	%	5-95 % Non-Condensing
Altitude	Ft	10,000 Ft
Over Voltage Protection	%	<150% of Rated Output
